

GROUP DATA SHEET

Skin cleansing products, with solvents and/or abrasives

Please never pass on this group data sheet alone but always together with the corresponding general information and the attached list of Poison Control Centres.

Last modified: 2011-12-19

1. Identification of the product

Liquid to paste-like surfactant preparations for skin cleansing with solvents and/or abrasives to remove persistent dirt or staining.

2. Hazards identification

When used properly, the product is safe and tolerable in accordance with the legal provisions (Article 2 of the EC Cosmetics Directive). The following information applies to inadvertent misuse or accidents as well as possible commercial uses.

Product may be flammable.

3. Composition/information on ingredients

Maximum 70 % solvents (e.g. ester oils), maximum 30 % surfactants, maximum 25 % natural or plastic scrubbing agents, maximum 10 % other ingredients (e.g. lipid enhancers, opacifiers and pearlescent agents), maximum 5 % polymers and thickening agents, maximum 5 % special care substances (e.g. vitamins, amino acids, moisturising agents, plant extracts), maximum 1 % complexing agents, maximum 1 % perfume oils, maximum 1 % preservatives, maximum 1 % antimicrobials, maximum 0.1 % colouring agents, water ad 100 %.

4. First aid measures

Measures in the event of

- Inadvertent contact with eyes: rinse thoroughly with plenty of lukewarm water immediately; if irritation persists, consult ophthalmologist as a precautionary measure.
- Inadvertent ingestion of larger amounts: do not induce vomiting. Rinse out mouth and drink about one glass of water. Where appropriate, consult Poison Control Centre or doctor. In the case of babies/infants always inform the Poison Control Centre or doctor as a precautionary measure.
- Discomfort on contact of undiluted product with skin: immediately wash off with water; skincare. If skin irritation persists, consult doctor.

When consulting a doctor or a Poison Control Centre always keep packaging or label and possibly package insert available.

5. Fire fighting measures

All common extinguishing agents are suitable.

6. Accidental release measures; disposal considerations

In the event of spillage/leakage: mop up main volume with cloths; when larger amounts are involved, dispose of cloths or mopping up material by controlled disposal – risk of fire. Remove rest with plenty of water and common cleaning agent. Where appropriate, wear suitable protective gloves.

Packaging should be recycled after residual emptying; minor product residues may be rinsed out. Filled, unused packages must be disposed of separately in accordance with the waste management directives of the municipality.

7. Handling and storage

Must be used in accordance with manufacturer's instructions. Observe any warnings on packaging.

Avoid contact with eyes. If the product is frequently handled professionally and in the event of high skin exposure preventive skin protection as well as the use of skincare products is recommended.

Store in a cool and dry place (room temperature). Reseal container after use.

Product may be flammable. Do not expose to extreme heat (e.g. sunlight). Do not store close to naked flames or sources of heat or use in their direct vicinity.

8. Other information

Refer to conditions of use and any warnings on the product or packaging.

For consultation in the event of poisoning, the Poison Control Centres have additional details about the individual products. When consulting a Poison Control Centre always keep packaging or label and possibly package insert available.

For contact data of the Poison Control Centres in Germany, Austria and Switzerland, see Appendix.
